

December 11, 2020

Hello everyone,

I hope that everyone is doing well and coping with this new normal. It is hard to believe that it has been nine months. The recent news of the COVID-19 vaccine is giving all of us hope.

I want to take this opportunity to inform you that we continue to have one outbreak at our Idlewyld Manor home with a minimal number of COVID-19 positive cases at this time. I also wanted to let you know that we have no active COVID-19 cases at any of our other 16 sites. We will continue to post updates and documents on the website as changes occur.

We are pleased to announce that we will be opening 20 transitional beds at the West Haldimand General Hospital in the new year. This is a partnership between the Local Health Integration Network, West Haldimand General Hospital and AbleLiving Services/Thrive Group. We are thrilled that this new partnership will positively impact the patients and families we serve in Haldimand Norfolk.

I wish you all the best as we move closer to this holiday season. Please be safe.

Steve Sherrer
CEO
