

Thrive Group
Integration. Inspiration. Independence.

22nd March, 2020

Good afternoon,

I had the honour of visiting some of our Long Term Care and Community sites over the weekend and experience for myself how our staff, residents, clients and families continue to support each other by following the Public Health and Ministry regulations. These efforts include rigorous screening of people and materials entering our sites, diligent cleaning routines of our equipment and facilities and strict adherence to the directives coming from the Ministry of Health and Public Health. I am relieved to report that, as of this afternoon, all of our locations remain COVID-19 free.

Thank you all for your patience and support during these extremely difficult and uncertain times. I encourage you to continue to practice social distancing as much as possible. Although not easy, limit the amount of time you are out of your homes when not at work, disinfect surfaces, cough into your sleeve, and wash your hands often. Together, let us do everything we can to flatten the curve so that we can slow down the spread of this virus and help our healthcare system maintain the capacity they need to care for the ill and save lives.

Please continue to reach out to us if you have questions, concerns, ideas or uplifting stories to tell. You can reach us by telephone, Facebook or on the ThriveGroup webpage. We are here for you and committed to do whatever we can to ensure the safety and well-being of your loved ones and each other.
